

GOBESHONA

Making Research on Climate Change in Bangladesh More Effective

Gobeshona is a knowledge platform for climate change research on Bangladesh. It aims to bring together the national and international research community to encourage sharing, enhance quality and, in doing so, make climate change research on Bangladesh more effective.

Gobeshona Young Researcher Workshop

The objective is to strengthen the quality of research on climate change in Bangladesh being produced by young researchers through one-on-one mentoring and the hosting of four workshops on identifying the problem and proposal writing; research process and techniques; analysing and interpreting data and quality writing-up of findings; publication and dissemination of research.

Gobeshona Portal

www.gobeshona.net is a portal which assimilates and shares information about completed publications, ongoing research, upcoming events and researcher opportunities relevant to climate change in Bangladesh.

Gobeshona Monthly Seminar

The Gobeshona steering committee is a network of government, academia, research, practicing and support organisations. Monthly seminars are hosted for stakeholder involvement where researchers present their findings with interactive networking sessions.

Gobeshona Conference

Gobeshona 3 will be held on 8-11 Jan 2017 at the Independent University, Bangladesh (IUB). Thematic sessions are hosted by institutes conducting research on climate change, updating participants on the current state of knowledge. 11 January is the science-policy dialogue day led by the government of Bangladesh. Gobeshona 3 will build upon the strengths of the last two conferences, engaging researchers alongside policy makers, implementing agencies and support organisations. It aims to evaluate research and address policy needs and gaps to find effective ways to move forward in confronting climate change.

THE GOBESHONA
CONFERENCE FOR RESEARCH ON
CLIMATE CHANGE IN BANGLADESH
 08-11 January 2017

DAY 0
7 JANUARY 2017

DAY 1 - 3
8 - 10 JANUARY 2017

DAY 4
11 JANUARY 2017

THE NEXT GENERATION RESEARCH INTO USE SCIENCE-POLICY DIALOGUE

CONFERENCE SESSIONS

- Adaptation Technologies
- Climate Change and Gender
- Climate Change and Health
- Climate Change and Livelihood
- Climate Change Modelling
- Coastal Management
- Disaster Risk Reduction
- Eco-System Resilience
- International Experiences
- Local Adaptation Planning
- Loss and Damage
- Migration
- Mitigation
- National Adaptation Planning
- Natural Resource Management
- Political Economy and Finance
- Renewable Energy
- Urbanization
- Waste Management
- Water and Sanitation

Gobeshona is a climate knowledge platform in Bangladesh. It's organising the third annual conference Gobeshona 3. The conference is an opportunity for international and multi-stakeholder participants to engage with a wide range of Bangladesh-specific climate change research and activities.

Conference venue:

Independent University, Bangladesh (IUB)
 Plot 16 Block B, Aftabuddin Ahmed Road,
 Bashundhara R/A, Dhaka, Bangladesh
 Phone: +88-02-8431645-53, 8432065-76
